## To Whom It May Concern

It is my pleasure to recommend Ricardo Barradas as CEO NaturaNautica,Lda. During the last four years, several researchers have been worked directly with Natura Algarve Ecotourism and numerous field trips in the Ria Formosa salt marshes were made through my coordination. The company offers top-notch quality and service, autonomy and capacity to solve non predict problems. Across the board, we are always pleased with their work.

One project in particular illustrates their attention to detail and concern for quality. For one of the international project the researcher's didn't knew exactly the place to collect some rare individuals, but with his knowledge, interest and learning, Ricardo Barradas took us to the perfect spot and the field trip was very successful. I believe that his creativity, strategies and knowledge were fundamental to that success.

Please consider Ricardo Barradas for your company. I recommend him for the enormous capacity of work, meet challenges, autonomy, leadership capacity and look forward to working with Ricardo, in the future.

Sincerely,

---
